

CHOCORUA SKI AND BEACH RECREATION REPORT 2015/2016

During the spring clean up many of our members came out to rake and clean the playground, tennis court, ball field, basketball court and the Memorial Park. It took a little less time this year to remove the pine needles and rubbish as we had a number of leaf blowers on site. During the summer months the backboard at the tennis court was replaced and painted and the cracks in the court surface were filled. The basketball hoops got new nets and two of the metal horses at the playground were painted and put back into service. The ball field has been maintained and the grass has been mowed by an independent contractor. As is our practice each year during the spring clean up, the beach was cleaned and the floats and docks were installed for the summer. We will have to do something about the surface of the tennis court in the near future as the surface is getting harder to maintain. Also many of the playground swing seats will have to be replaced next year. All and all most of the playground equipment is in good condition and has serviced our children and grand children quite well for the past 50 plus years. Thanks to all that helped during the spring clean up and painted and repaired our equipment this past year.

Respectfully yours,

Recreation Committee Co-Chairs

Del Orndorff
Phil Sheehan
Michelle Murphy
